

NX CAD SIG - 4th November 2009

Siemens PLM Software would like to set up a NX CAD special interest group in the UK which will allow a greater and more direct relationship between Siemens PLM and its NX Customers. The initial one day meeting at the WMG Digital Laboratory on Wednesday 4th November will be a presentation & discussion between Siemens PLM product experts and its UK NX customers. The aim of the forum is to provide both customers and Siemens PLM, a vehicle to discuss issues and developments within the NX product portfolio.

Improving Product Development

- Improving your products
- Improving Your effectiveness
- Improving your product cost
